

# City Green

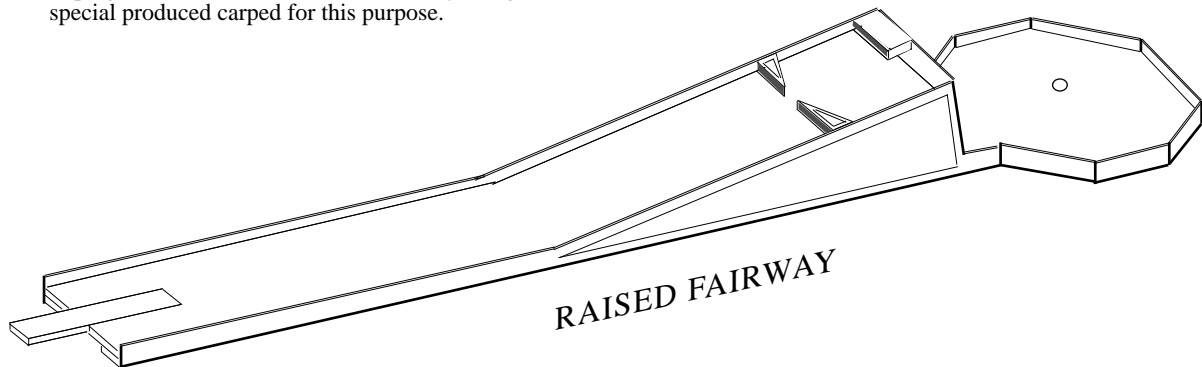

The most mobil type of felt-golf  
by FUN-SPORTS

mobil • indoor • outdoor  
play and fun without limits

The construction of City Green courses is built from high pressure impregnated wood. The surface of fairway and green consists of a special produced carpet for this purpose.

City Green consists of two fairways and the according two greens, which are very easy to connect. Because you need only 36 m<sup>2</sup>, quite everybody, who is a felt-golf fanatic, can enjoy this leisure-sport. Especially the optical effects of City Green impress also these players, who until now didn't know this type of leisure-activity. City Green should be everywhere, where play and fun is welcome to relax.

City Green you can find at:

- hotel-lobby
- hotel-fitnessarea
- parks
- public institutions, schools, hospitals
- restaurants (outdoor)
- camp sites
- and also in private areas
